PETIT Trend washbasin tap.
By SCHELL.

SCHELL PETIT Trend washbasin tap. Shapely, economical and vandal-resistant.

The superbly robust and elegant PETIT Trend self-closing tap is the ideal choice for meeting the demanding requirements in public sanitary facilities – especially thanks to its vandal-resistant all-metal design. Whether installed as a wall-mounted draw-off tap or tap, this washbasin tap for cold water and premixed water is not only durable but also very economical.

Product description:

- Robust single-hole tap in an all-metal design with plastic cartridge (high-pressure, cold and pre-mixed water)
- Wall-mounted draw-off tap and washbasin tap models
- Manual actuation, automatic closing
- Brass housing, confirm to German Drinking Water regulation
- Surface: chrome
- Dimensions: DN 15 G 1/2 AG
- Flow time 6 s (approx.), not adjustable

Advantages:

- Robust, vandal-resistant tap for use in facilities such as service stations, stadiums or schools
- Low water consumption with flow rate of just 3 l/min at 3 bar flow pressure (can be converted to 5 l/min at 3 bar flow pressure)
- Hygienic, since tap does not need to be handled further after washing hands
- Clear-cut, modern design
- Easy-to-clean surface
- Fully compliant with German Drinking Water regulation
